PROGRAMMING

SERVICE PROJECTS

Break'rs will work with local disaster response organizations to help rebuild homes and communities damaged by Hurricane Ida. This may include demolition, general construction, and finishing work like sheetrocking, painting and flooring. All service projects will be in Houma, LA, the hardest hit area.

Break'rs will have a mixture of planned and unplanned excursions throughout the week after service hours. On Wednesday, we plan to end service early around lunch time, to provide a free time to explore the city from 2pm-10pm.
